

# Hello.

We're **CINENAMON.**

We help brands **connect with customers** through videos  
that **build positive brand image** and enhance products appeal.

Creative video and branding studio based in Samut Prakan

# A Creative Production Partner For Brands That Want To Stand Out

Cinenamon House is a Samut Prakan-based creative agency specializing in cinematic video production, brand storytelling, and AI-integrated content workflows.

We work with brands, SMEs, and industrial businesses across Thailand and the region to transform complex ideas into clear, compelling visual communication.

# What makes us different

We don't just produce content. We help brands communicate better.

## Deep Listening

We start by understanding your business, not just your brief. Every project begins with strategic discovery.

## Story Before Format

Every video begins with a clear narrative purpose. Form follows function in everything we create.

## Smart Production

AI-enhanced workflows where they make sense, never at the cost of cinematic quality or human creativity.

## Long-Term Partnership

Built for brands that want consistency and strategic thinking, not just one-off content production.

## Where Creativity Meets Ai Production

We integrate AI tools into selected workflow stages to improve speed, flexibility, and cost efficiency, while maintaining cinematic quality and human creativity.

### Use Cases

- Pre-visualization & concept development
- Storyboard & mood creation
- Visual extensions & impossible shots
- Scalable content for digital platforms

**AI IS A TOOL,  
NOT THE HERO**

**Human creativity and strategic thinking  
drive every decision we make.**
